

Microbiologist - NIAID (DCR) - CR – DE

[Microbiologist - NIAID \(DCR\) - CR - DE](#)

GS-0403-12/13

\$73,100-\$113,007

Health And Human Services/National Institutes of Health
Bethesda

08/28/2009

This position is located in the Department of Health and Human Services (HHS), National Institutes of Health (NIH), National Institute of Allergy and Infectious Diseases (NIAID), Collaborative Clinical Research Branch (CCRB) within the Division of Clinical Research (DCR).

The Division of Clinical Research plays an integral role in facilitating the efficient and effective performance of NIAID research programs on both the domestic and the international level. This is accomplished through a multi-faceted approach to the provision and support of services vital to the research infrastructure that include oversight and management of Intramural clinical research, program planning & management, regulatory monitoring & compliance, statistical consultation and research methodology, and clinical research capacity building.

You will spend 50% of your time facilitating research at DCR's Bethesda, MD location and the other 50% of the time in an international environment in Bamako, Mali. Additionally, you will serve as a laboratory support specialist and use scientific professional knowledge, techniques, and methods to assist an Investigator in carrying out projects to meet the research goals of the CCRB.
